

**Yuan Ze University**  
**Department of Electrical Engineering (Group B)**  
**CSPTek Technology Scholarship Implementation Guidelines**

Approved on: April 19, 2022 (Academic Year 2021, 13th Departmental Meeting)

**Article 1**

To encourage outstanding students pursuing graduate studies in the Department of Electrical Engineering (Group B), particularly in the areas of Telecommunication Engineering and High-Frequency Technology, the CSPTek Co., Ltd., a spin-off company from Professor Cheng-Kuang Huang's CSPLab, has donated funds to establish this scholarship.

**Article 2 — Eligibility**

Outstanding master's students are eligible to apply. Each academic year, three (3) students will be selected, and each recipient will be awarded NT\$5,000.

**Article 3 — Required Application Documents**

1. Academic transcript (including class ranking).

**Article 4 — Supporting Materials**

Supporting documents that may assist in the review process, such as:

- Award certificates
- Project reports
- Published papers, etc.

**Article 5**

Recipients of this scholarship may not simultaneously receive scholarships from other companies, except for the Cheng Wen Technology Scholarship.

**Article 6**

Eligible students must submit their applications to the department within the announced application period. All applications will be reviewed by the departmental committee, and the approved list of recipients will be publicly announced.

**Article 7**

These implementation guidelines shall take effect upon approval by the departmental committee. Any future amendments shall follow the same approval process.
