

Yuan Ze University
Department of Electrical Engineering (Group B)
WTG Technology Scholarship Implementation Guidelines

Approved on: October 11, 2022 (Academic Year 2022, 4th Departmental Meeting)

Revised on: July 11, 2023 (Academic Year 2022, 17th Departmental Meeting)

Article 1 — Purpose

To encourage outstanding students pursuing graduate studies in the Department of Electrical Engineering (Group B), particularly in the areas of Telecommunication Engineering and High-Frequency Technology, WTG Technology Co., Ltd. has established this scholarship through generous donation.

Article 2 — Scholarship Quota and Amount

This scholarship is offered once per semester. Each academic year, two (2) recipients will be selected in the first semester and two (2) in the second semester. Each recipient will receive NT\$5,000. The number of recipients may be adjusted according to WTG Technology Co., Ltd.'s annual budget.

Article 3 — Eligibility

1. Applicants must be Republic of China (Taiwan) nationals with registered household residency in Taiwan. International students are not eligible. A household registration certificate must be submitted.
2. Conduct (behavior) grades must be 85 points or above.
3. Applicants must have completed coursework related to PCB (Printed Circuit Board) design.
4. The applicant's academic grade average for the previous semester must be within the top 20% of their class.
5. Recipients of this scholarship may not receive scholarships from other companies during the same semester (except for the Cheng Wen Technology Scholarship).

Article 4 — Required Application Documents

1. Completed WTG Technology Co., Ltd. Scholarship Application Form, with the official department seal.
2. Official transcript of the previous semester (including class ranking). The transcript must be an original copy obtained from the Registrar's Office. Applicants who do not have a

transcript for the previous semester must provide an explanation (first-semester graduate students are exempt).

3. Additional materials that may assist in the review process, such as:

- Award certificates
- Project reports
- Published papers, etc.

Article 5 — Application and Selection Procedure

Eligible students must submit their applications to the department within the announced application period. Applicants will undergo an interview and final selection conducted by WTG Technology Co., Ltd., followed by a review by the departmental committee. The final list of approved recipients will then be publicly announced.

Article 6 — Implementation

These implementation guidelines shall take effect upon approval by the departmental committee. Any future amendments shall follow the same procedure.
